## Organisations

- [The Open Group](#) The Open Group is a global consortium that enables the achievement of business objectives through IT standards.
- [Open Answers](#)  
UNIX Packages is pleased to announce its partnership with **Open Answers**. Both organisations share a heritage that dates back to the origins of UNIX. We are delighted to be able to partner with Open Answers and to offer their services to our clients and associates.
- [Formidable Pro](#) Formidable uses drag and drop controls to create forms and display the data on your site.
- [S3STAT](#) S3STAT is a service that takes the detailed server access logs provided by Amazon's CloudFront and Simple Storage Service (S3), and translates them into human readable statistics, reports and graphs.
